Done

✉ security settings update.

## Activate device administrator?

### Email

The server pod51010.outlook.com requires that you allow it to remotely control some security features of your phone.

Activating this administrator will allow the application Email to perform the following operations:

- ✓ **Erase all data**  
Erase the phone's data without warning, by performing a factory data reset
- ✓ **Set password rules**  
Control the length and the characters allowed in screen-unlock passwords
- ✓ **Monitor screen-unlock attempts**  
Monitor the number of incorrect
